HapiJS

CREATE A SERVER

Load Hapi
Create server
Set the connection
Start the server

PS: CHECK THE OPTIONS IN THE API DOCS

ROUTES

Let's create a few routes - default and api

CONNECTING WITH CASSANDRA

Create an Aiven account
Follow the instructions here:
https://help.aiven.io/cassandra/getting-started-with-aiven-cassandra
Delete the inserting code logic
Add keyspace

HTTPS://GITHUB.COM/VICTORCOUSTE/HAPI-CASSANDRA

SETUP API FOR ENTERING EMPLOYEE RECORD

Setup the route
Write the code logic for the post request

SETUP API FOR FETCHING EMPLOYEE RECORD

Setup the route
Write the get code logic

SETUP API FOR FETCHING EMPLOYEE RECORD BY ID

Update an employee record
Delete an employee record
